

## **Mapi Pharma to Host Key Opinion Leader Meeting on Long Acting Glatiramer Acetate (GA Depot) for Primary Progressive Multiple Sclerosis and New Treatments for MS**

Analyst Lunch and Live Webcast on Tuesday March 5<sup>th</sup> at 12 Noon ET

**NESS ZIONA, Israel – February 21, 2019** – Mapi Pharma Ltd., a fully integrated, clinical late stage biopharmaceutical company, announced today that it will host a Key Opinion Leader (KOL) luncheon on its GA Depot, a novel long-acting depot formulation of glatiramer acetate for relapsing forms of Multiple Sclerosis (RMS) and for primary progressive multiple sclerosis (PPMS), as well as new horizon treatments for MS on Tuesday, March 5<sup>th</sup>, 12 noon – 1:30 pm Eastern Time, in New York City.

The meeting will feature a presentation by Carlo Tornatore, MD, Georgetown University Medical Center, who will discuss the current treatment landscape, as well as the unmet medical need for treating patients with PPMS. Dr. Tornatore will be available to answer questions at the conclusion of the event.

Mapi Pharma's CEO and Chairman Ehud Marom, together with top management, will provide an overview of the company's positioning in the MS market, present recent clinical data of GA Depot in RRMS patients and initial results in treatment of PPMS patients as well as other pipeline developments.

Carlo Tornatore, MD, is Professor and Chairman of Neurology at Georgetown University Medical Center as well as Director of the Multiple Sclerosis Patient Centered Specialty Practice at Medstar Georgetown University Hospital in Washington, DC. He earned his master's degree in physiology at Georgetown University and his medical degree at Georgetown University Medical School. He completed his internship at Providence Hospital and his residency in neurology at Georgetown University Hospital. His fellowship was completed at the National Institute for Neurologic Disorders and Stroke at the National Institutes of Health in the Laboratory of Molecular Medicine and Neuroscience in Bethesda, MD. Dr. Tornatore is a member of the American Academy of Neurology and American Society for Neural Transplantation. His research interests include multiple sclerosis treatment, neuroimmunology, neuro-AIDS, and infectious diseases of the central nervous system, for which he has published a wide variety of articles and book chapters. In addition, he is a reviewer for several journals including *Annals of Neurology*, *Neurology*, and *Medical Virology*.

This event is intended for institutional investors, sell-side analysts, investment bankers, and business development professionals only. Please [RSVP](#) in advance if you plan to attend, as space is limited. For those who are unable to attend in person, a live webcast with slides and replay will be accessible [here](#).

## **About Mapi Pharma**

Mapi is a clinical stage pharmaceutical company, engaged in the development of high barrier-to-entry and high added-value life cycle management (“LCM”) products that target large markets and generic drugs that include complex active pharmaceutical ingredients (“APIs”) and formulations. The GA Depot injection, administered once every four weeks, is the first in a series of depot long-acting injections in the company’s pipeline, for the treatment of MS. The product is an LCM of Copaxone®, which requires injections daily or every other day. Mapi Pharma partnered with Mylan N.V. (NASDAQ: MYL) for GA Depot injection in an agreement under which Mylan was granted an exclusive license to commercialize the GA Depot injection product for relapsing multiple sclerosis. Mapi is built on strong chemical and pharmaceutical R&D capabilities, a deep understanding of the global market and of regulatory needs, and its ability to foster local cooperation and enduring relationships in all of the countries in which it operates. Mapi is headquartered in Israel, with R&D facilities in Israel and China, and an API production facility in the Neot-Hovav Eco Industrial Park south of Beersheba, Israel. Mapi has a strong IP position, filing numerous patent applications for APIs and formulations. For more information, please visit: [www.mapi-pharma.com](http://www.mapi-pharma.com).
